Independent Auditor's Report

To the Chairman and Members of
the Board of Commissioners
South Dakota Housing Development Authority
(A Component Unit of the State of South Dakota)
Pierre, South Dakota

We have audited the accompanying statements of net assets of South Dakota Housing Development Authority, a component unit of the State of South Dakota, as of June 30, 2011 and 2010, and the related statements of revenues, expenses and changes in net assets and cash flows for the years then ended. These financial statements are the responsibility of South Dakota Housing Development Authority's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the South Dakota Housing Development Authority as of June 30, 2011 and 2010, and the changes in its net assets and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 14, 2011 on our consideration of South Dakota Housing Development Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audits.

24 Second Ave. S.W. | P.O. Box 430 | Aberdeen, SD 57402-0430 | T 605.225.8783 | F 605.225.0508 | EOE

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 8 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audits were conducted for the purpose of forming opinions on the basic financial statements of South Dakota Housing Development Authority taken as a whole. The supplementary schedules set forth on pages 31 and 32 are presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplementary schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The image shows a handwritten signature in black ink that reads "Eric Bailly LLP". The signature is written in a cursive, flowing style.

Management's Discussion and Analysis

June 30, 2011 and 2010 (Unaudited)

This section of the South Dakota Housing Development Authority's (the Authority) annual financial report presents management's discussion and analysis of the Authority's financial performance during the fiscal years ended June 30, 2011 (FY 2011) and 2010 (FY 2010). This discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements. This analysis should be read in conjunction with the Independent Auditor's Report, financial statements, notes to the financial statements, and supplementary information.

The Authority

The Authority was created in 1973 by the Act as a body politic and corporate and an independent public instrumentality for the purpose of encouraging the investment of private capital for the construction and rehabilitation of residential housing to meet the needs of persons and families in the state. Among other things, the Authority is authorized to issue bonds and notes to obtain funds to purchase mortgage loans to be originated by mortgage lenders and to make mortgage loans to individuals for the construction and permanent financing of single family housing; to make mortgage loans to qualified sponsors for the construction and permanent financing of multifamily housing; to purchase, under certain circumstances, existing mortgage loans; to purchase, from mortgage lenders, securities guaranteed by an instrumentality of the United States that finances mortgage loans; and to issue bonds to refund outstanding bonds. Additionally, the Authority has the power, among other powers, to provide technical, consulting and project assistance services to private housing sponsors; to assist in coordinating federal, state, regional and local public and private housing efforts; and to act as a housing and redevelopment commission. The Authority is also authorized to provide financing for day care facilities and assisted living and congregate care facilities; to guarantee mortgage loans; and to provide rehabilitation financing.

The Authority's financial statements include the operations of funds that the Authority has established to achieve its purpose. The activity of the Authority is accounted for as a proprietary type fund. The Authority is a component unit of the State of South Dakota and its financial statements are included in the Comprehensive Annual Financial Report of the State of South Dakota.

Basic Financial Statements

The basic financial statements include three required statements that provide different views of the Authority. They are the Statement of Net Assets, the Statement of Revenues, Expenses, and Change in Net Assets, the Statement of Cash Flows, and the accompanying notes to the financial statements.

The Statement of Net Assets provides information about the liquidity and solvency of the Authority by indicating the nature and the amounts of investments in resources (assets), the obligations to Authority creditors (liabilities), and net assets. Net assets represent the amount of total assets, less total liabilities. The organization of the statement separates assets and liabilities into current and non-current.

The Statement of Revenues, Expenses and Change in Net Assets accounts for all of the current year's revenues and expenses in order to measure the success of the Authority's operations over the past year. This statement is organized by separating operating revenues and expenses from nonoperating revenues and expenses. Operating revenues and expenses are defined as those relating to the Authority's primary business of construction, preservation, rehabilitation, purchase and development of affordable single and multifamily housing and daycare facilities. Nonoperating revenues and expenses are those that do not contribute directly to the Authority's primary business.

The Statement of Cash Flows is presented using the direct method of reporting. It provides information about the Authority's cash receipts, cash payments and net changes in cash resulting from operating, investing, and financing activities. Cash receipts and payments are presented in this statement to arrive at the net increase or decrease in cash and cash equivalents for each year.

Management's Discussion and Analysis

June 30, 2011 and 2010 (Unaudited)

These statements are accompanied by a complete set of notes to the financial statements that communicate information essential for fair presentation of the basic financial statements. As such, the notes form an integral part of the basic financial statements.

Changes in Financial Position

The following tables show the significant changes that have taken place over the past three fiscal years ended FY 2011, FY 2010 and June 30, 2009 (FY 2009) for the Statement of Net Assets and the Statement of Revenues, Expenses and Change in Net Assets of the Authority:

Changes in Statement of Revenues, Expenses and Net Assets (In Millions of Dollars)

Total net assets	\$ 454.1	\$ 437.4	\$ 404.1	3.8%	8.2%

Financial Highlights for FY 2011

- Total operating revenues decreased 4.9% to \$148 million for FY 2011, from \$155.7 million in FY 2010 due to a decrease in the fair market value of investments.
- Total operating expenses increased 7.3% to \$131.3 million for FY 2011, from \$122.4 million in FY 2010 due to an increase in grant expense for the Neighborhood Stabilization Program and Tax Credit Assistance Program.
- Net assets of the Authority for FY 2011 were \$454.1 million, which represented an increase of \$16.7 million, or 3.8% from the FY 2010 net assets level.
- Mortgage loans receivable were \$1,588.8 million for FY 2011, which represented a decrease of \$46.7 million, or 2.9% for FY 2011, from the FY 2010 level of \$1,635.5 million. This was a result of repayments, prepayments and loss reserves net of new loan purchases.
- Interest received on mortgage loans was \$78.9 million for FY 2011, which represented a decrease of \$1.6 million from the \$80.5 million reported in FY 2010. As the loan balance decreased so did the interest received on loans.
- Investment income was \$22.0 million for FY 2011, which represented a decrease of \$2.6 million, or 10.6% in FY 2011, from \$24.6 million in FY 2010 due to the low interest rates received on new investments. The fair market value decreased by \$6.9 million in FY 2011 and increased by \$5.7 million in FY 2010. The FY 2011 fair market decrease was a result of rising interest rates at fiscal year end.

Management's Discussion and Analysis

June 30, 2011 and 2010 (Unaudited)

- Bonds and notes outstanding of the Authority were \$1,799.9 million for FY 2011, which was a decrease of \$238.1 million, or 11.7% in FY 2011, from \$2,038.0 million in FY 2010 due to more bonds being redeemed or maturing during the year than bonds being issued.
- Interest expense on bonds and notes outstanding decreased \$3.1 million, or 4% in FY 2011, from \$76.2 million in FY 2010 as a result of less bonds outstanding during the year.
- The Authority performed an operating transfer of \$846,000 from the Homeownership Mortgage Loan Program (\$40,000) and the Single Family Mortgage Loan Program (\$806,000) to the General Operating Account. The Authority transferred 1% of loan purchases to the General Operating Account to pay for operating expenses.

Financial Highlights for FY 2010

- Total operating revenues increased 4.8% to \$155.7 million for FY 2010, from \$148.5 million in FY 2009 due to an increase in federal grant funding. Programs contributing to the increase include Housing Assistance Payments, HOME, and the newly created Neighborhood Stabilization Program.
- Total operating expenses decreased 7.2% to \$122.4 million for FY 2010, from \$131.9 million in FY 2009 due to a decrease in interest paid on variable rate bonds and the amount recorded as arbitrage expense.
- Net assets of the Authority for FY 2010 were \$437.4 million, which represented an increase of \$33.3 million, or 8.2% from the FY 2009 net assets level.
- Mortgage loans receivable were \$1,635.5 million for FY 2010, which represented an increase of \$87.8 million, or 5.7% for FY 2010, from the FY 2009 level of \$1,547.7 million. This was primarily due to loan purchases exceeding the level at which loans prepayments and curtailments were applied.
- Interest received on mortgage loans was \$80.5 million for FY 2010, which represented an increase of \$282,000 from the \$80.3 million reported in FY 2009. Even though the loan balance increased in FY 2010, the weighted average interest rate decreased due to new loans being issued at historically low rates.
- Investment income was \$24.6 million for FY 2010, which represented a decrease of \$4.3 million, or 14.9% in FY 2010, from \$28.9 million in FY 2009 due to the low interest rate environment.
- Bonds and notes outstanding of the Authority were \$2,038 million for FY 2010, which was an increase of \$44.6 million, or 2.2% in FY 2010, from \$1,993.4 million in FY 2009 due to more bonds being purchased during the year than bonds being redeemed or matured.
- Interest expense on bonds and notes outstanding decreased \$10.8 million, or 12.4% in FY 2010, from \$87 million in FY 2009 as a result of no variable rate bonds becoming bank bonds in FY 2010 and a decrease in the variable rate paid on bonds.

Loan Portfolio Activity for FY 2011 and FY 2010

The Homeownership Mortgage Loan Program is the Authority's largest single category of assets. The loan portfolio decrease can be attributed to several factors: 1) No \$8,000 income tax credit for homeowners from the U.S. Treasury, and 2) Conventional lending rates were lower than the Authority's rates for portions of FY 2011. The following are some key highlights of loan related activities:

Management's Discussion and Analysis

June 30, 2011 and 2010 (Unaudited)

- Through the use of the New Issue Bond Program (NIBP) the Authority created a new single family mortgage loan program called the Single Family Mortgage Loan Program. The Authority began purchasing loans under the Single Family Mortgage Loan Program in December 2009. The purchase of mortgage loans under the Homeownership Mortgage Loan Program has been discontinued temporarily as a result of the creation and use of the Single Family Mortgage Loan Program. The NIBP is scheduled to expire on December 31, 2011.
- The Homeownership and Single Family Mortgage Loan Programs purchased approximately \$165.6 million of new mortgage loans during FY 2011. The portfolio decreased 2.9% to \$1,588.8 as of FY 2011 from \$1,635.5 million as of FY 2010. During FY 2010, the loan portfolio increased \$87.8 million, or 5.7%, from \$1,547.7 million as of FY 2009.

Debt Administration

The Authority is authorized to issue debt to purchase or originate mortgage loans on single family and multifamily residential properties. As of FY 2011, the Authority had \$1,799.9 million in bonds outstanding, a 11.7% decrease from FY 2010. As of FY 2010, the Authority had \$2,038.0 million in bonds outstanding, a 2.2% increase from FY 2009.

The Authority issued a total of \$155.4 million in bonds in FY 2011. Of that total, \$30 million was issued as new long-term debt and \$45 million was converted from NIBP issued short-term debt to long-term bonds and \$80.4 million was short-term debt for warehousing. The proceeds were then used to purchase single family loans. No bonds were issued to preserve bonding authority or to refund bonds from prepayments and excess reserves during FY 2011. The Authority issued a total of \$368.1 million in bonds in FY 2010. Of that total, \$175 million was issued as long-term debt for the origination of single family loans, \$193.1 million was issued as short-term debt, of which \$60 million was converted to long-term bonds. \$40 million in bonds were issued to preserve bonding authority and to refund bonds from prepayments and excess reserves during FY 2010.

The Authority retired or paid at maturity a total of \$392.8 million in bonds in FY 2011. \$347 million was redeemed from prepayments and excess reserves and \$45.8 million was maturing principal. The Authority retired or paid at maturity a total of \$321.6 million in bonds in FY 2010. \$254.3 million was redeemed from prepayments and excess reserves and \$67.3 million was maturing principal.

In FY 2011 and FY 2010, the Authority's Homeownership Mortgage Bonds were rated AAA by Standard and Poor's, and Aa1 by Moody's Investors Service. The Authority's Multiple Purpose Bonds are insured by Assured Guaranty Ltd. (formerly Financial Security Assurance Holdings, Ltd.) and are therefore rated Aa3 by Moody's Investors Service. Moody's Investors Service has given the Authority an Issuer Rating of Aa3. In FY 2011 the Authority's Single Family Mortgage Bonds were rated Aa3 by Moody's Investor Service.

During FY 2009, the Authority experienced a few failed remarketings that resulted in some bonds being purchased by the liquidity provider and becoming "bank bonds". All of the bonds with a liquidity facility provided by DEPFA Bank plc (DEPFA) became bank bonds after DEPFA's rating was downgraded in September 2008 by Moody's Investors Service and in October 2008 by Standard and Poor's. In February 2009, the Authority replaced the DEPFA liquidity facility with a facility of its own, at which point all bank bonds were successfully remarketed. In November 2009, most of this facility was replaced with a facility provided by the Federal Home Loan Bank of Des Moines. The Authority did not have any bank bonds during FY 2011 or 2010.

More detailed information about the Authority's debt can be found in Note 5, Bonds Payable.

Management's Discussion and Analysis

June 30, 2011 and 2010 (Unaudited)

Capital Assets

Capital assets decreased by \$0.3 million in FY 2011 from \$6.8 million in FY 2010 to \$6.5 million in FY 2011. This net change is due to additions and retirement of assets and depreciation expense.

Capital assets increased by \$0.4 million in FY 2010 from \$6.4 million in FY 2009 to \$6.8 million in FY 2010. This net change is due to additions and retirement of assets and depreciation expense.

More detailed information about the Authority's capital assets can be found in Note 13, Capital Assets.

Economic Outlook

In FY 2011 the Authority continued using the NIBP, which is scheduled to expire on December 31, 2011. The Authority will explore other avenues of financing single family loans as the NIBP comes to a close. In FY 2010, the Authority began using the NIBP to issue debt at a cost of funds that resulted in a lower, more attractive mortgage rate. In addition, the credit markets became more stable and hedging transactions performed as expected.

Overview

This financial report is designed to provide a general overview of the Authority's finances. If you have questions about this report or would like to request additional information, contact the South Dakota Housing Development Authority's Director of Finance at PO Box 1237, 3060 E. Elizabeth Street, Pierre, SD 57501-1237.

Notes to Financial Statements

Note 1 - Authorizing Legislation and Indentures:

Authorizing Legislation:

The South Dakota Housing Development Authority (the Authority) was created in 1973 by an Act of the South Dakota Legislature. The Authority was established for the purpose of encouraging the investment of private capital and stimulating the construction and rehabilitation of residential housing for the people of the State through the use of public financing, including public construction, public loans, public purchase of mortgages and otherwise. The Authority may issue notes and bonds in principal amounts specifically approved by the Governor. The Internal Revenue Code of 1986 established a state ceiling for qualified private activity bonds applicable to the State of South Dakota for any calendar year. The calendar year state allocation for South Dakota is \$277,820,000 for 2011. Amounts issued by the Authority shall not be deemed to constitute a debt of the State of South Dakota or any political subdivision thereof. The Authority is a business-type activity component unit of the State of South Dakota. As such, the accompanying financial statements are included in the Comprehensive Annual Financial Report of the State of South Dakota.

Description of Reporting Entity:

The Authority is considered a single enterprise fund for financial reporting purposes. The activities of the Authority are recorded under various indentures established for the administration of the Authority's programs. A further description of these indentures is as follows:

General Operating Account:

This account, authorized by the enabling legislation, was initially funded in August 1973 by a \$12,420 grant of federal funds from the South Dakota State Economic Opportunity Office. Funding on an ongoing basis is derived principally from loan origination fees, allowable transfers from other funds and investment income. Authorized activities of this account include the following:

- (i) payment of general and administrative expenses and other costs not payable by other funds of the Authority; and,
- (ii) those activities deemed necessary to fulfill the Authority's corporate purposes for which special funds are not established.

Included in the account are the activities of statewide Section 8 Housing Assistance Payments Programs, which the Authority administers on behalf of the U.S. Department of Housing and Urban Development (HUD). Under these programs, the Authority distributes housing assistance payments received from HUD.

The Authority has appropriated all income received in the General Operating Account to a General Reserve Account. This account can be used only for the administration and financing of programs in accordance with the policy and purpose of the enabling legislation.

Homeownership Mortgage Program Bonds:

This indenture, established under the Homeownership Mortgage Program Bond Resolution adopted June 16, 1977, as amended and restated as of March 11, 2008, is prescribed for accounting for the proceeds from the sale of the Homeownership Mortgage Bonds, the debt service requirements of the bond indebtedness, the remaining assets and liabilities of the Single Family Housing Program and mortgage loans on eligible single family residential housing disbursed from bond proceeds. The mortgage loans are made to finance the construction, rehabilitation or ownership of such housing, and are insured by the Federal Housing Administration (FHA) or private mortgage insurers, guaranteed by the Veterans Administration (VA), guaranteed by USDA Rural Development (RD), or have a principal amount which does not exceed 80% of the appraised value of the home.

Single Family Mortgage Bonds:

This indenture, established under the Single Family Mortgage Bonds Resolution adopted on December 2, 2009, was created to utilize the United States Treasury's Single Family New Issue Bond Program. This indenture will facilitate the administration and financing of programs for the development or acquisition of owner-occupied housing, at prices that persons of low or moderate income can afford.

Multiple Purpose Bonds:

This indenture, established under the Multiple Purpose Bond Resolution adopted March 1, 2002, is prescribed for accounting for the proceeds from the sale of Multiple Purpose Bonds, for the purpose of effectuating the public purposes of the Authority and establishing procedures to assure that amounts will be sufficient for the repayment of money borrowed for this purpose.

Multifamily Housing Revenue Bonds:

This indenture, established under the Multifamily Housing Revenue Bonds Resolution adopted April 15, 1991, is prescribed for accounting for proceeds from the sale of Multifamily Housing Revenue Bonds to provide funds to make, acquire or otherwise finance loans from multifamily housing developments, or to purchase guaranteed mortgage pass-through certificates to be issued and guaranteed as to timely payment of principal and interest by the Government National Mortgage Association (GNMA).

Multifamily Mortgage Pass-Through Bonds:

This indenture, established under the Mortgage Pass-Through Certificates Resolution adopted June 27, 1995, is prescribed for accounting for proceeds from the sale of Mortgage Pass-Through Certificate Bonds to provide funds to acquire mortgage pass-through certificates. The Bonds are special, limited obligations of the Authority, payable solely from revenues and assets held in and receivable by Funds and Accounts established under the Bond Resolution.

Housing Development Revenue Bonds:

This indenture, established under the Housing Development Revenue Bond Resolution adopted August 5, 1998, is prescribed for accounting for the proceeds from the sale of Housing Development Revenue Bonds to provide funds for the development and construction of single family homes. The Bonds are special, limited obligations of the Authority, payable solely from revenues and assets held in and receivable by Funds and Accounts established under the Bond Resolution.

Multifamily Risk Sharing Bonds:

This indenture, established under the Multifamily Housing Revenue Bonds Series 1999 Resolution adopted July 1, 1999, is prescribed for accounting for proceeds from the sale of Multifamily Housing Revenue Bonds to provide funds to finance loans for multifamily housing developments. The Bonds are special limited obligations of the Authority, payable solely from revenues and assets held in and receivable by Funds and Accounts established under the Bond Resolution.

Note 2 - Significant Accounting Policies:**Basis of Presentation:**

The Authority, as a component unit of government, follows standards established by the Governmental Accounting Standards Board (GASB). As required by government accounting standards, these financial statements present the Authority and its component units, entities for which the Authority is considered to be financially accountable. The criteria for inclusion in or exclusion from the financial reporting entity is outlined in GASB Statement 14 amended by GASB 39 and includes oversight responsibility, including financial accountability, over agencies by the Authority's Board of Commissioners. The Authority is financially accountable if it appoints a voting majority of an organization's governing body and is able to impose its will on that organization, or there is a potential for the organization to provide specific financial benefits to or impose specific financial burdens on the Authority.

In accordance with GASB Statement 20, the Authority does not apply all Financial Accounting Standards Board (FASB) Statements and Interpretations issued after November 30, 1989.

Basis of Accounting:

The Authority follows the accrual basis of accounting. Revenue is recognized in the accounting period in which it is earned and expenses are recognized when they are incurred.

Interest Income:

Accrued interest is recognized on the amount of outstanding mortgage loans. The accrual of interest on delinquent loans is discontinued at the time that foreclosure activities are completed.

Statements of Cash Flows:

For the purposes of the Statements of Cash Flows, cash and cash equivalents are defined as investments with original maturities of ninety days or less.

Investments:

Investments of the Authority are carried at market value. Unrealized gains and losses due to fluctuations in market value are included in income.

Mortgage Loans Receivable:

Loans receivable are carried at their unpaid principal balance, net of unamortized discounts or premiums, and are recorded as amounts are disbursed. Premiums and discounts are amortized, using the loans outstanding method, over the life of the loans.

Some loans receivable contain provisions for the loans to become grants if certain criteria is met. The conversion of loans receivable to grants are calculated on an annual basis, though the debtor is not entitled to receive full credit until maturity of the loan agreement or upon meeting certain criteria. As loans receivable converted to grants are estimated, loans receivable is credited and a charge to operations is made through other housing programs. Loans receivable includes credits of \$10,439,908 and \$0 as of June 30, 2011 and 2010, respectively. Upon maturity of the loan agreement or achievement of specified criteria, the applicable portion of the loan receivable balance is awarded to the debtors.

Guaranteed Mortgage Securities:

Guaranteed Mortgage Securities are mortgages on multifamily developments, the principal and interest payments of which are guaranteed by another entity. The Authority carries the securities at their amortized value.

Fee Income:

Fees collected as reimbursement for costs incurred in developing and implementing the programs of the Authority and for other specific services are recorded as income in the period received. Commitment fees collected in connection with Homeownership and Multifamily mortgages are credited to income as loans are purchased against outstanding commitments. During fiscal year 2011 the Authority stopped charging commitment fees on Homeownership loans purchased. The Authority now performs an operating transfer of 1% of loan purchases to the General Operating Account.

Deferred Financing Costs:

Issuance costs on bonds are amortized, using the bonds outstanding method, over the life of the bonds. The unamortized costs of bonds which are refunded are amortized either over the life of the refunding bonds or the life of the bonds that were refunded, whichever is shorter.

Receivables:

Receivables not expected to be collected within one year are recorded in the Statement of Net Assets as noncurrent.

Bond Premiums and Discounts:

Premiums and discounts on bonds are amortized using the straight line method over the life of the bonds to which they relate.

Interest Rate Swaps:

During FY 2010, the Authority adopted the provisions of GASB Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*; whereby, the interest rate swap agreements are recorded at fair value on the Statement of Net Assets. If the swap agreements are effective hedges, an offsetting deferred swap inflow or outflow is recorded on the Statement of Net Assets. If the swap agreements are not effective hedges, the interest expense is increased or decreased by the change in the fair value of the swap agreements. Swap effectiveness is determined using the synthetic instrument method. Since the swap agreements are all effective hedges, there was no effect on net assets for fiscal years 2011 and 2010.

Real Estate Owned:

Real estate owned and held for sale arises from foreclosures or other mortgage default-related actions on properties pledged as collateral on mortgage loans. Real estate held for sale in connection with the Single Family and Multifamily Program is recorded at the unpaid principal balance plus accrued interest on the loans as of the date the loans become real estate owned. Since substantially all Single Family loans are covered by private mortgage insurance, based on the Authority's past experience, it is anticipated that the Authority will recover substantially all of the unpaid principal balances of the loans through proceeds arising from the sale of such property and certain insurance proceeds. Recoveries for Multi-Family nonperforming loans arise from the sale of such property. Estimates for proceeds considered to be uncollectible are recorded as an allowance for loan loss.

Capital Asset Policy:

Capital assets costing more than \$5,000 are recorded at cost when acquired and depreciated over the estimated useful life of the asset, using the straight-line method. Assets sold or otherwise disposed of are removed from the related accounts and resulting gains or losses are reflected in the Statements of Operations. The classes of assets used by the Authority are furniture and equipment, land, land improvements, and buildings. The estimated useful lives for furniture and equipment range from 4-15 years, estimated useful lives of land improvements range from 20-30 years and the estimated useful lives of buildings range from 27-50 years.

Inventory:

Other assets consist of inventory, which are recorded at the lower of cost or market. Cost is determined using the weighted average method.

Arbitrage Rebate:

The Authority is limited in the investment yield which it may retain for its own use on the nonmortgage investments for most of its bond issues. Excess arbitrage yields must be rebated to the federal government in accordance with applicable federal tax regulations. The Authority has recorded liabilities in the amount of \$2,852,977 and \$7,343,524 at June 30, 2011 and 2010, respectively, for arbitrage rebates which are included in accounts payable and other liabilities.

Escrows and Reserves:

The Authority requires multifamily projects to escrow funds with the Authority to cover certain future expenditures. Investments equal to the amount of escrows and reserves are restricted for this purpose. Investment income relating to these funds is credited directly to the escrow funds; it is not included in the investment income of the Authority.

Revenue and Expense Recognition:

Enterprise funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering items in connection with an enterprise fund's principal ongoing operations. The Authority records all revenues derived from mortgages, investments, servicing, financing and federal housing programs as operating revenues since these revenues are generated from the Authority's daily operations needed to carry out its purpose. Operating expenses include bond interest, amortization of bond issuance costs, and depreciation and administrative expenses related to administration of the Authority's programs. The Authority does not have nonoperating revenue and expenses for the years ending June 30, 2011 and 2010.

Pass-Through Grants:

The Authority follows GASB Statement No. 24, *Accounting and Financial Reporting for Certain Grants and Other Financial Assistance*. Statement No. 24 requires that all cash pass-through grants received by a governmental entity be reported in its financial statements. The effect of applying these provisions is to increase both operating income and expense when eligible expenses occur.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, reported amounts of revenues and expenses and other disclosures. Actual results could differ from those estimates.

Net Assets:

Net assets are classified in the following three components:

- Invested in Capital Assets, Net of Related Debt – This component consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any debt that is attributable to the acquisition, construction, or improvement of those assets.
- Restricted Net Assets – Consists of net assets with constraints placed on their use by (1) external groups, such as creditors or (2) law through enabling legislation.
- Unrestricted – Consists of net assets that do not meet the definition of invested in capital assets or restricted.

Allowance for Loan Loss:

The allowance for loan loss is determined based upon management's evaluation of the loan portfolio. Factors considered by management include the estimated fair values of the properties that represent collateral, mortgage insurance coverage on the collateral, the financial condition of the borrower, past experience, and the economy as a whole. While management uses available information to recognize losses on loans, future additions to the allowance may be necessary based on changes in economic conditions.

Reclassifications:

Certain amounts in the financial statements for the year ending June 30, 2010 have been reclassified for comparative purposes in order to conform with the presentation in the financial statements for the year ending June 30, 2011. The change in the net assets was not affected by these reclassifications.

Note 3 - Deposits and Investments:

Under the terms of the bond resolutions, the Authority is generally restricted to investments in direct general obligations of the United States of America, agencies and instrumentalities of the United States of America, negotiable or nonnegotiable certificates of deposit issued by a bank that is insured by the FDIC, obligations of the state or any agency or instrumentality thereof, or securities that are permissible for the investment of state public funds under the provisions of § 4-5-26. As of the years ended June 30, 2011 and 2010, all investments held by the Authority were in compliance with the requirements of the bond resolutions.

(continued on next page)

Deposits:

Custodial Credit Risk: Custodial credit risk is the risk that in the event of a bank failure, the Authority's deposits may not be returned. The Authority's deposit policy requires deposits in excess of the Depository Insurance maximums must be collateralized 100%. Collateral must be deposited for safekeeping in a financial institution that is not owned or controlled either directly or indirectly by the pledging financial institution. The financial institution where the collateral is held must be a member of the Federal Reserve. As of June 30, 2011 and 2010, of the Authority's deposits of \$1,951,373 (carrying value of \$1,612,342) and \$2,048,565 (carrying value of \$1,681,262), respectively, all were covered by insurance or collateral held in the Authority's name in accordance with the Authority's deposit policy.

Investments:

Custodial Credit Risk: For investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Authority will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Authority does not have an investment policy for custodial risk. All investments are held in the Authority's name.

Interest Rate Risk: The Authority limits the maturities of investments for its restricted accounts. Investments of the Capital Reserve accounts must provide for the purposes thereof as estimated by the Authority. The investments must not mature later than the final maturity of the related Series of the Bonds. The average duration of individual securities will not exceed twenty years. Investments of the Mortgage Reserve accounts must provide for the purposes thereof as estimated by the Authority. The duration of 50% of individual securities will not exceed two years from the date of purchase or deposit. The Authority assumes that its callable investments will not be called. The Authority invests in mortgage pass-through securities issued by Fannie Mae (Federal National Mortgage Association), Ginnie Mae (Government National Mortgage Association) and Freddie Mac (Federal Home Loan Mortgage Corporation). Because prepayments of mortgages underlying these securities affect the principal and interest payments received by these securities, these securities are considered highly sensitive to interest rate risk. As of June 30, 2011 and 2010, 17% and 15%, respectively, of the Authority's securities were invested in mortgage pass-through securities. As of June 30, 2011 and 2010, the Authority had investments maturing as follows:

	2011 Investment Maturities (in Years)				
	Fair Value	Less Than 1	1 to 5	6 to 10	Greater Than 10
U.S Government obligations	\$ 190,597,027	\$ 98,719,892	\$ 66,835,723	\$ 5,115,350	\$ 19,926,062
U.S. Agency obligations	308,424,879	33,854,933	139,504,382	30,718,373	104,347,191
Money market/mutual funds	151,729,401	151,629,401	-	100,000	-
Investment agreements	5,009,165	-	-	-	5,009,165
State obligations	6,946,874	280,206	5,199,980	1,466,688	-
Total	\$ 662,707,346	\$ 284,484,432	\$ 211,540,085	\$ 37,400,411	\$ 129,282,418

	2010 Investment Maturities (in Years)				
	Fair Value	Less Than 1	1 to 5	6 to 10	Greater Than 10
U.S Government obligations	\$ 260,650,960	\$ 144,722,866	\$ 87,599,364	\$ 6,581,813	\$ 21,746,917
U.S. Agency obligations	318,178,311	14,910,242	140,297,381	38,817,322	124,153,366
Money market/mutual funds	151,243,460	150,845,968	397,492	-	-
Investment agreements	5,093,416	-	100,000	-	4,993,416
State obligations	108,777,966	2,201,576	2,935,553	3,249,837	100,391,000
Total	\$ 843,944,113	\$ 312,680,652	\$ 231,329,790	\$ 48,648,972	\$ 251,284,699

At June 30, 2011 and 2010, certain cash equivalents and investment in securities are restricted in prescribed amounts by the bond resolutions as follows:

	2011			
	Homeownership Mortgage Program Bonds	Single Family Mortgage Bonds	Multiple Purpose Bonds	Multifamily Risk Sharing Bonds
Capital reserve for debt service	\$ 90,738,600	\$ -	\$ 5,222,954	\$ 611,416
Mortgage reserve for debt service, bond redemption premiums, and potential for loan losses	40,424,936	-	-	-
Debt service reserve	-	7,500,000	-	-
Total	<u>\$ 131,163,536</u>	<u>\$ 7,500,000</u>	<u>\$ 5,222,954</u>	<u>\$ 611,416</u>

	2010			
	Homeownership Mortgage Program Bonds	Single Family Mortgage Bonds	Multiple Purpose Bonds	Multifamily Risk Sharing Bonds
Capital reserve for debt service	\$ 100,720,200	\$ -	\$ 5,222,954	\$ 611,416
Mortgage reserve for debt service, bond redemption premiums, and potential for loan losses	45,531,291	-	-	-
Debt service reserve	-	3,000,000	-	-
Total	<u>\$ 146,251,491</u>	<u>\$ 3,000,000</u>	<u>\$ 5,222,954</u>	<u>\$ 611,416</u>

Credit Risk: It is the investment policy of the Authority to invest in securities limited to direct general obligations of the United States Government, United States Government Agencies, direct and general obligations of any state within the United States, mutual funds invested in securities mentioned above and investment agreements secured by securities mentioned above. If securities are downgraded after purchase, the Authority will analyze the reason for downgrade and determine what, if any, action is needed. Investments issued by or explicitly guaranteed by the United States Government are not considered to have a credit risk. The investments are grouped as rated by Moody's Investors Service:

Moody's Rating	2011	2010
Aaa	\$ 451,230,153	457,072,499
Aa	7,825,903	2,479,434
A	-	6,504,022
Baa	400,920	-
Unrated	8,507,200	107,731,538
Total	<u>\$ 467,964,176</u>	<u>\$ 573,787,493</u>

Concentration of Credit Risk: The Authority will minimize Concentration Credit Risk, by diversifying the investment portfolio and reducing the impact of potential losses from any one type of security or issuer. At June 30, 2011, the Authority held 5% or more of their investments with the following issuers: Federal Home Loan Bank (14.70%), Federal National Mortgage Association (18.20%), and Federal Home Loan Mortgage Corporation (9.02%). At June 30, 2010, the following issuers held 5% or more of the Authority's investments: Federal Home Loan Bank (11.83%), Federal National Mortgage Association (10.62%), Federal Home Loan Mortgage Corporation (11.02%), and South Dakota Housing Development Authority (11.92%) (see Note 5).

Note 4 - Mortgage Loans Receivable:

Mortgage loans receivable at June 30 consist of the following:

	<u>2011</u>	<u>2010</u>
Homeownership Mortgage Program Bonds	\$ 1,205,552,730	\$ 1,403,174,221
Single Family Mortgage Bonds	233,335,444	82,232,764
Multiple Purpose Bonds	33,895,306	37,895,079
Other (General Operating Account)	65,436,485	60,865,340
Total	<u>\$ 1,538,219,965</u>	<u>\$ 1,584,167,404</u>

The above loans are substantially insured by the FHA or private mortgage insurance companies, or guaranteed in part by the VA or USDA Rural Development. Losses on mortgage loans in the Homeownership Mortgage Program Bond Program are also secured by an insurance reserve fund established under the bond resolution. The mortgage loans receivable are reflected net of an allowance for loan loss of \$1,943,207 and \$1,430,552 as of June 30, 2011 and 2010, respectively.

Included in the mortgage loan receivable balance is real estate owned by the Authority from foreclosures. The amount of real estate owned at June 30, 2011 and 2010 is \$6,675,962 and \$5,254,549, respectively.

Note 5 - Bonds Payable:

Homeownership Mortgage Program Bonds require annual principal payments on May 1 of each year. Homeownership Mortgage bonds outstanding at June 30 are (in thousands):

Bond Issue	Maturity Date	Interest Rate	2011			2010
			Serial	Term (1)	Total Outstanding	Total Outstanding
1997 Series C	2012-2018	5.375%	\$ -	\$ 830	\$ 830	\$ 3,830
1997 Series D	2012-2024	5.375% - 5.4%	-	1,705	1,705	6,210
1997 Series E-1	2012-2018	5.3%	-	2,220	2,220	7,500

(1) Term bonds are subject to mandatory redemption from mandatory sinking fund installments.

(2) Variable rate adjusted weekly based on the current market rate for similar tax exempt bonds.

(3) Drawdown bonds discussed below.

The Single Family Drawdown Revenue Bonds are issued for the purpose of the replacement refunding of existing bond issues to provide funds for the purchase of new single family loans. These bonds are subject to periodic conversion to long-term bonds. On October 31, 2008, the Authority purchased \$113 million, or 100% of the Authority's outstanding Single Family Drawdown Revenue Bonds, at a purchase price of par. This was allowable per Internal Revenue Service Notice 2010-7, which modified Notice 2008-88, and provided temporary rules for state and local governmental issuers to purchase and hold until December 31, 2010 their own tax-exempt bonds. The Authority ended up calling these bonds by December 31, 2010. The \$100 million as of June 30, 2010 was recorded as an asset (investment) and liability (bond payable) on our 2010 financial statements.

The Authority issues certain Series of Bonds as variable rate interest debt in order to reduce its overall cost of funds and further its objective of providing affordable mortgage rates for homebuyers in the State. The Authority's variable rate Bonds are currently subject to optional tender on a weekly basis. Through standby bond purchase agreements, certain financial institutions (the "Liquidity Providers") have agreed to purchase such variable rate Bonds that have been tendered and cannot be remarketed. Variable rate Bonds purchased by a Liquidity Provider bear interest at various special negotiated interest rates and have accelerated principal payments over various special negotiated interest rates and have accelerated principal payments over various terms of years, as set forth in each such agreement.

Total Single Family Mortgage Bonds					<u>\$ 307,973</u>	<u>\$ 233,100</u>

(1) Term bonds are subject to mandatory redemption from mandatory sinking fund installments.

(2) Warehousing bonds discussed below.

In December 2009, the Authority issued Single Family Mortgage Bonds 2009 Series 1 in the amount of \$193,100,000. The bonds are limited obligations of the Authority secured by program obligations and by amounts on deposit in the Series 2009 1 Escrow Account. These bonds were issued and sold to the United States Treasury under the federal New Issue Bond Program. The proceeds of the bonds will be held in an escrow account until the short-term interest rate on the bonds is converted into a long-term fixed rate with the proceeds being used to buy mortgages. If the bonds have not been converted by December 31, 2011, they are subject to mandatory redemption on February 1, 2012. As of June 30, 2011, \$105,000,000 of the short-term rate bonds from the New Issue Bond Program have been converted to long-term rate bonds. The outstanding balance of these short-term bonds as of June 30, 2011 and 2010 was \$88,100,000 and \$133,100,000, respectively.

The Authority and Citibank, N.A. entered into a transaction on June 29, 2010, whereby Citibank, N.A., agreed to purchase up to \$230,000,000 of the Authority's Single Family Mortgage Warehousing Bonds ("Warehousing Bonds"), the proceeds of which will be used by the Authority to provide warehouse financing for Mortgage Loans prior to such Mortgage Loans being permanently financed by the issuance of Bonds pursuant to the Single Family Mortgage Bond Resolution. No more than \$115,000,000 of such Warehousing Bonds may be outstanding at any time, any such Warehousing Bonds mature 180 days after their date of issuance, but not later than December 31, 2011 (or March 31, 2012 in certain cases), and such Warehousing Bonds bear interest on a monthly basis equal to LIBOR plus 0.50%. Such Warehousing Bonds are general obligations of the Authority, secured by a pledge of any Mortgage Loans while financed thereunder. During 2011, the Authority issued \$80,375,000 and repaid \$33,475,000 of the Warehousing Bonds. The outstanding balance of these short-term bonds as of June 30, 2011 and 2010 was \$46,900,000 and \$0, respectively.

Multiple Purpose Bonds require annual principal payments on November 1 of each year. Multiple Purpose Bonds outstanding at June 30 are (in thousands):

Note 6 - Interest Rate Swaps:

Swap Objectives:

The Authority has entered into interest rate swap agreements in connection with issuing variable rate mortgage revenue bonds. The intentions of the swaps are to create synthetic fixed rate debt at a lower interest rate than achievable from long-term fixed rate bonds and to achieve the Authority's goal of lending to low- and moderate-income first-time home buyers at below market fixed interest rates.

Swap Terms:

The terms, including the fair values and counterparty credit ratings of the outstanding swaps as of June 30, 2011 and 2010, are contained in the table below. The initial notional amounts of the swaps match the initial principal amounts of the associated debt. The Authority has purchased the right to terminate the outstanding swap balances at par value on dates that are generally ten years after the date of issuance of the related bonds.

Bond Series	Current Notional Amount	Effective/Termination Date	Fixed Rate	Variable Rate Receivable	Counterparty Credit Rating*	Fair Value June 30, 2011	Increase (Decrease) in Fair Value for the Fiscal Year Ended June 30, 2011	Fair Value June 30, 2010	Increase (Decrease) in Fair Value for the Fiscal Year Ended June 30, 2010

Fair Value:

The valuation was determined by calculating the difference between the present values of each fixed cash flow to be paid and each floating cash flow to be received by the Authority based upon the current market yield curve. The present value factors for each cash flow are based on the implied zero coupon yield curve determined by current market rates. Additionally, the values of the call options are determined by calculating the present value of each predicted option outcome, whose interest rate prediction variance is determined by current market implied volatility. Together these calculations determine the current fair value of the Authority's swap contracts. The fair values in the table above represent the termination payments that would have been due had the swaps been terminated as of June 30, 2011 and 2010. A positive fair value represents money due the Authority by the counterparty upon termination of the swap, while a negative fair value represents money payable by the Authority.

Swap Risks:

Credit Risk: The terms of the swaps expose the Authority to potential credit risk with the counterparty upon the occurrence of a termination event. The fair value of a swap represents the Authority's current credit exposure to the counterparty with which the swaps were executed. The Authority has credit risk exposure to its counterparties when the swap position has a positive value. Several of the swap agreements require that, upon demand, a party post collateral to secure its obligation to make a termination payment to the extent the fair value exceeds a collateral threshold specified in the agreement. The collateral thresholds are based on the prevailing ratings, as determined by Moody's and S&P, of each counterparty, in the case of the counterparties, or the hedged bonds, in the case of the Authority. These bilateral requirements are established to mitigate potential credit risk exposure. As of June 30, 2011 and 2010, neither the Authority nor any counterparty had been required to post collateral.

Basis Risk: The Authority incurs the potential risk that the variable interest payments on its bonds will not equal the variable interest receipts from its swaps. This basis risk exists because the Authority pays the actual variable rate on its bonds, but under the terms of its swaps receives a variable rate based upon the one month, taxable LIBOR rate. Basis risk will vary over time due to inter-market conditions. For the years ended June 30, 2011 and 2010, the weighted average interest rate on the Authority's variable rate debt associated with swaps was 1.970% and 2.25% per annum, respectively, while the weighted average interest rate on the swaps was 1.931% and 2.173% per annum, respectively. In order to reduce the cumulative effects of basis risk, the variable rate determination structure for interest receipts within the swap is based upon a regression analysis of the long-term relationship between variable tax exempt rates and the one month, taxable LIBOR rate.

Termination Risk: The Authority's swap contracts are based upon the International Swap Dealers Association Master Agreement, which includes standard termination events. The swap contracts may be terminated by either party if the other party fails to perform under the terms of the contract. Upon termination, a payment is due to one party irrespective of causality based upon the fair value of the swap. The potential termination risks to the Authority are the liability for a termination payment to the counterparty or the inability to replace the swap under favorable financial terms. To reduce the Authority's termination risk, the swap contracts limit the counterparty's ability to terminate due to the following Authority actions or events: payment default, other defaults that remain uncured for 30 days after notice, bankruptcy and insolvency.

Amortization Risk: The Authority may incur amortization risk because prepayments from the mortgage loan portfolio may cause the outstanding amount of variable rate bonds to decline faster than the amortization of the swap. To ameliorate amortization risk, call options were structured within the swaps to enable the Authority to manage the outstanding balances of variable rate bonds and notional swap amounts. Additionally, the Authority may terminate the swaps at market value at any time.

Tax Risk: The structure of the variable interest rate payments the Authority receives from its swap contracts are based upon the historical long-term relationship between taxable and tax exempt short-term interest rates. Tax risk represents a risk that may arise due to a change in the tax code that may fundamentally alter this relationship. The Authority has chosen to assume this risk because it was not economically feasible to transfer to the swap counterparty.

Concentration Risk: The total outstanding notional amount of swaps with a single counterparty will not exceed \$150,000,000.

Swap Payments and Associated Debt: As rates vary, variable-rate bond interest payments and net swap payments will vary. Debt service requirements of the variable-rate debt and net swap payments, assuming current interest rates remain the same for their term, were as follows using rates as of June 30, 2011:

Year Ended June 30	Variable Rate Bond		Interest Rate	Total
	Principal	Interest	Swap - Net	
2012	\$ 80,000	\$ 365,303	\$ 13,493,357	\$ 13,938,660
2013	90,000	365,146	13,363,744	13,818,890
2014	90,000	364,975	12,726,107	13,181,082
2015	95,000	364,804	12,723,196	13,183,000
2016	100,000	364,619	12,720,044	13,184,663
2017-2021	555,000	1,820,114	62,746,323	65,121,437
2022-2026	695,000	1,814,243	62,485,763	64,995,006
2027-2031	57,025,000	1,727,043	59,179,563	117,931,606
2032-2036	285,070,000	1,185,540	40,362,551	326,618,091
2037-2041	49,615,000	96,688	3,256,422	52,968,110
2042-2046	1,600,000	16,407	279,223	1,895,630
2047-2051	740,000	2,076	35,327	777,403
	<u>\$ 395,755,000</u>	<u>\$ 8,486,958</u>	<u>\$ 293,371,620</u>	<u>\$ 697,613,578</u>

Rollover Risk: Rollover risk is the risk that a swap associated with a bond issue does not extend to the maturity of that debt. When the swap terminates, the associated debt will no longer have the benefit of the swap. The Authority is exposed to rollover risk on the following debt:

Bond Series	Debt Maturity Date	Swap Termination Date
2003 C-1	May 1, 2032	May 1, 2013
2005 D	May 1, 2031	May 1, 2015

Note 7 - Net Assets:

The State has pledged to and agreed with Bondholders that it will not limit or alter the rights vested in the Authority to fulfill the terms of any agreements made with them, or in any way impair the rights and remedies of the Bondholders, until the bonds, together with the interest thereon and on any unpaid installments of interest, and all costs and expenses in connection with any action or proceedings by or on behalf of such Bondholders, are fully met and discharged. The net assets of the indentures other than the General Operating Account are therefore restricted under the terms of the bond resolutions. The Authority may, however, subject to the provisions as defined in bond resolutions, transfer surplus earnings to the General Reserve Account in the General Operating Account. The Authority covenants that it will use money in the General Reserve Account only for the administration and financing of programs in accordance with the policy and purpose of the Act, including reserves for the payment of bonds and notes and of loans made from the proceeds thereof, and will accumulate and maintain therein such a balance of funds and investments as will be sufficient for that purpose.

Sub Accounts of the General Operating Account, established as part of the General Reserve Account on the basis of specified guidelines, are restricted at June 30 as follows:

	2011	2010
Bond and notes reserve	\$ 4,346,400	\$ 4,017,218
Program operations reserve	2,497,954	2,278,921
Total	\$ 6,844,354	\$ 6,296,139

Note 8 - Commitments:

As of June 30, 2011, the Authority had the following Homeownership Mortgage Program Bond commitments:

- Commitments to purchase Homeownership mortgage loans aggregating \$35,240,332.

Note 9 - Segment Information:

The Authority issues bonds to finance the purchase of single family homes and multifamily developments. The bond programs are accounted for in a single enterprise fund, but investors in those bonds rely on the revenue generated by the activities within the individual bond indentures. Summary financial information as of and for the year ended June 30, 2011 and 2010, for the Homeownership Mortgage Program Bonds, Single Family Mortgage Bonds and the Multiple Family Housing Trust Bonds follows:

	2011			2010

Note 10 - Pension Plan:

Plan Description:

The Authority contributes to the South Dakota Retirement System (SDRS), a cost sharing multiple employer defined benefit pension plan. SDRS provides retirement, disability and survivor benefits to plan members and beneficiaries. SDCL Chapter 3-12 outlines the benefits and provisions of the plan.

Plan Administration:

Administration of the plan is assigned to the Board of Trustees of SDRS. The SDRS issues a publicly available financial report that includes financial statements and required supplementary information for SDRS. Their financial report may be obtained by writing directly to South Dakota Retirement System, P.O. Box 1098, Pierre, SD 57501, or by calling SDRS at (605) 773-3731.

Funding Policy:

Plan members are required to contribute 6% of their annual covered salary and the Authority is required to match an additional 6%. These rates are based on actuarial determinations to provide a contribution requirement equal to the contributions made. The contribution requirements are established and may be amended by the SDRS Board of Trustees. The Authority's contributions to SDRS were \$170,633, \$175,477, and \$164,913 for the years ended June 30, 2011, 2010, and 2009, respectively.

Note 11 - Contingencies:

The Authority is involved in various legal actions arising in the normal course of business. In the opinion of management, such matters will not have a material adverse effect upon the financial position of the Authority.

Note 12 - Risk Management:

The Authority is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the years ended June 30, 2011 and 2010, the Authority managed its risks as follows:

The Authority purchased, from a commercial carrier, health insurance for its employees; liability insurance for risks related to torts, theft or damage of property, errors and omissions of public officials; and liability insurance for workmen's compensation. The Authority provides coverage for unemployment benefits by paying into the Unemployment Compensation Fund established by state law and managed by the State of South Dakota.

Note 13 - Capital Assets
