Overview of the ICC for SDHDA
Richard Hauffe, Senior Regional Manager
ICC Government Relations
South Dakota, North Dakota, Nebraska, Iowa and Minnesota

VISION: Protect the health, safety and welfare of people by creating safe buildings and communities.

MISSION: To provide the highest quality codes, standards, products and services for all concerned with the safety and performance of the built environment.
History

- Established in 1994 by three legacy organizations:
  - The International Conference of Building Officials (ICBO).

The Code Council was founded to develop a single set of comprehensive and coordinated national model codes.

ORGANIZATION

- Self-funded, nonprofit association
- Committed to making buildings safe to protect people and preserve properties
- Develops and maintains building safety codes/standards used to design, construct and maintain residential/commercial buildings
- Offices in Washington D.C.; Brea, CA; Birmingham, AL; Country Club Hills, IL; and 13 satellite offices in MA, WA, NY, OH, AZ, LA, FL, SD, SC, RI, TX, PA, GA
- 64,000+ members and 377 Chapters
- Staff of more than 350 engineers, architects and administrators
Founding Strategic Partners

- Governmental

- Honorary

- Student

- Participating

- Retired

64,000 and growing!
I-Codes Adoption

- 50 States + District of Columbia
  - U.S. Territories
  - Federal Agencies
- Mexico
- Caribbean Region
- Central America
- Eastern Europe
- Middle East

Safety 2.0

- An initiative to welcome the next generation of members and leaders to the building safety profession
Native Code Officials Organization
Native Code Officials Organization

Build a coalition of stakeholders to work with the International Code Council to create the Native Code Officials Organization.

• Members must be a certified construction code official who is an enrolled member of a tribe in North America.
• NCOO is dedicated to the establishment of tribal building inspections offices and the adoption and enforcement of current International Codes by sovereign tribal governments to protect building integrity and safety on tribal lands.
• NCOO is dedicated to the training, certification and professional support needs of Native code officials who are employed to provide code regulatory services on tribal lands.
• NCOO will exist to promote the use of modern model construction codes and to encourage its members to participate in the ICC’s governmental consensus process to update the International Codes every three years.

Thank you!
